

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE	
Proposed Claim	Atty. Docket No. VIGN1250-1
Applicant Sean M. McCullough	
Application Number 09/681,758	Date Filed 05/31/2001
Title Method for Continuous, Frame-Specific Click-Stream Recording	
Group Art Unit 2154	Examiner Patel, Ashokkumar B.
Confirmation Number: 6416	

Proposed New Claim:

(New) A method of tracking the origin of a request for a network address, comprising:

- receiving a first frame identifier and a requested network address at a first time, wherein the first frame identifier is associated with a first frame and the requested network address was requested from the first frame;
- finding a record including the first frame identifier, an originating network address and a second time, wherein the second time precedes the first time and the originating network address is associated with a page containing the first frame; and
- generating an entry for a table that includes the first frame identifier, the originating network address, the requested network address, and a third time.

Remarks

Examiner Patel, thank you for taking the time to look at this proposed new claim.
Please do not hesitate to call me directly on 512-637-9226 if you would like to discuss.
